Student Signature: _____ Date: _____

Parent/Guardian approval signature for minor-age student: _____ Date: _____

Printed Name of Parent/Guardian: _____

Privacy Policy Notice

This document provides the disclosure statement regarding use of collected information for participation in America's Boating Club's (United States Power Squadrons (USPS)) courses and seminars, and post-course communications.

Student information is retained in USPS secure computers as it may be required for certain operator certifications or in the event replacement documentation of a course completion is required.

Group photography of classroom or on-the-water events coincident to the course or seminar may be taken for public relations purposes and include all students. **The signature of the parent or guardian is required as approving inclusion of the minor-aged student in such photography.**

Information is collected regarding how the student found out about the course or seminar to help with selection of the most beneficial venues for course and seminar advertising. Demographic information about the student's boat type and size is collected to help us determine the best focus for our courses and seminars, leading to education which meets the needs of our students. These items are only for internal USPS use.

Agreement to the foregoing and the necessary approval for minor-aged students to participate in USPS courses and seminars is granted if the parent or guardian signs this form in the space on the front of this form.

The USPS may additionally use the course completion information when promoting membership in the organization, and may share the contact information with USPS Partners who are listed on our home page, www.americasboatingclub.org. USPS promotions may include membership for minors as an "apprentice", in USPS University and/or free six-month membership offers in participating USPS squadrons. The computer program will recognize minor-aged students and automatically check the OPT-OUT box for that student. This action blocks future post-class communications by USPS and its partners. **The parent or guardian may authorize these types of communications by asking the Squadron Educational Officer or Course Administrator to remove the check in the OPT-OUT box.**
