The Erie Power Squadron has set up a Christmas party at McGarrey's Oakwood Café at 1624 W. 38th Street. It will start at 7:00pm. Remember you and a guest are invited to all squadron dinner meetings.

A nearby event that may interest you would be the upcoming Mosquito Lake Fall Feast at the Cortland Conservation Club. It is at 3931 McCleary Jacoby Road in Cortland Ohio. It will be on

Sunday, September 24 at 4:00pm. For more information, contact Linda Petrilla at lpptri@kent@edu.

According to the national website, Erie Power Squadron has done 81 vessel safety exams this year. Remember, Tim Margosian can always use more examiners. If you are interested, give Tim a call and he will get you started.

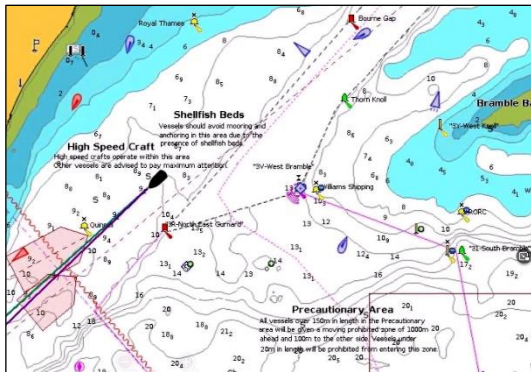

The boating community uses many acronyms that someone new to boating may not understand. Aids to navigation or ATONS is an excellent example. To help you and your students, America's Boating Channel has two videos on this important safety topic available to view and download for free at bit.ly/USPSABC.

["Introducing ATONS"](#) shows how buoys, day beacons, and other marks provide aids to navigation, while ["Digital Charts and Virtual ATONS"](#) covers the effort underway to replace paper nautical charts with electronic navigation charts, including tips for using these enhancements and how they will make recreational boating safer.

Grant-funded through the U.S. Coast Guard, these videos also are available on [YouTube](#) and via the America's Boating Channel on-demand app on Roku or

Library of Boating Safety Videos

The boating community uses many acronyms that someone new to boating may not understand. Do students enrolled in our basic safe boating course understand that the acronym ATONS references aids to navigation? In 2020 America's Boating Channel produced "[Introducing ATONS](#)," a video showing how buoys, day beacons, and other marks provide aids to navigation. This short video offers a wonderful introduction to ATONS. In it, viewers also learn about categories such as lateral and regulatory ATONS, as well as special purpose and danger marks.

In 2022, another ATONS video was released. Entitled "[Digital Charts and Virtual ATONS](#)," it covers the effort underway to replace paper nautical charts with electronic navigation charts. This video introduces viewers to three types of new virtual aids to navigation. Also featured are tips for using these enhancements and how they will make recreational boating safer.

Remember, if you need a refresher before getting out on the water, you can access an invaluable library of videos produced by America's Boating Channel. The videos referenced here, and others, are available to USPS

members to view and download for free at bit.ly/USPSABC. There is an index to help you find the topic you need, which is very convenient for instructors who want to use these videos in the classroom without the need for an internet connection.

Otherwise, visit America's Boating Channel on YouTube at <https://www.youtube.com/@AmericasBoatingChannel> to find these and nearly 100 other safe boating videos, which are an excellent tool to help recruit participants to our educational program and to membership. Invite your friends and neighbors to watch, like and subscribe to America's Boating Channel to introduce them to what our organization has to offer.

In addition to YouTube, these professionally produced high-definition safe boating and boater education videos are available via the America's Boating Channel on-demand app on Roku or FireTV. [America's Boating Channel™](#) is produced by the United States Power Squadrons® (USPS) under a grant from the Sport Fish Restoration and Boating Trust Fund administered by the U.S. Coast Guard.

Mosquito Lake Squadron
FALL FEAST BARBECUE
Sunday Afternoon, September 24, 2022

Held at the Cortland Conservation Club grounds at Mosquito Lake. We will meet at 1400 and plan to eat around 1600. Some members will be there earlier to set up and start preparations. We are barbecuing ribs and chicken breasts. Our group will furnish meats, rolls, condiments, paper, plastic ware, beer. **Bring whatever other beverages you wish**, We are asking attendees to bring a small covered dish or desert to share and lawn chairs. There is always more than enough food.

As we wrap up yet another boating season, this is an excellent event to catch up with old friends and meet new ones. Rain or shine, we are in an enclosed lakeside pavilion with excellent facilities.

So that we may have an idea of attendance for preparations, we ask for you to confirm attendance. Even last minute reservations are appreciated.
