PORT CAPTAIN'S DIRECTORY

**Local knowledge via radio, telephone, mail or the Internet
SQUADRON ACTIVITIES COMMITTEE**

**Dedicated to
making boating
safer and more fun**

This is the symbol of one of the largest groups of local boating knowledge volunteers that exists anywhere.

This roster is filled with the names of USPS[™] PORT CAPTAIN volunteers, men and women who have local knowledge and are willing to share with fellow members. They are just a letter, ham radio contact, e-mail, phone call away. Contact them and you will be pleasantly surprised. If you see someone wearing the elite patch shown top center of this page they also will share their local knowledge with you.

This roster is for the use of all our members, whether they are on their first cruise to unfamiliar waters, visiting new areas by land, or by other means of travel. Also, an amateur radio net listing of volunteers is also available at <http://www.usps.org/national/Ham> as a means of obtaining local information when needed.

The Port Captains are listed in the roster under the states in which they have their local knowledge. This is usually, but not always, the state they reside in. The general areas of their knowledge is listed in underlined bold type. They are then listed geographically under these areas with their specific area noted. For squadrons or districts planning cruises to unfamiliar waters this knowledge can be very helpful in their planning. The format is designed to lead you to the areas you plan to cruise or visit.

Please review your listing and submit any corrections or additions on the form contained in the guide section. If you are not listed and would like to join this group of volunteers all you have to do is complete and submit the same form. If you see areas that do not have coverage and know a USPS member that has local knowledge of that area encourage them to submit their name for listing in this roster. Please check the Port Captain Division of Squadron Activities website for possible updates. This site is located at: <http://www.usps.org/national/PortC>

Your suggestions to improve or enhance this roster are encouraged along with your experiences. Please send to the chairman of the safe boating activities committee.

NOTICE

The information provided by a port captain is based on information available to the port captain in the area of interest and the United States Power Squadrons[®], its Districts and Squadrons neither warrant nor guarantee that such information is free from error or omission and assume no responsibility or liability for any error or omission which may exist in the information provided by the port captain.

CHARLOTTE AMALIE

The United States Power Squadrons®

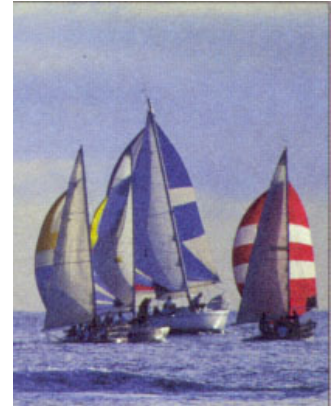

Sharing our Knowledge

- USPS members enjoy more than 30 classroom and self-study courses in marine subjects from Seamanship and Piloting to GPS and Celestial navigation.
- Successfully completing the USPS Boating Course meets the educational requirements for boat operation in all states.
- The USPS Skipper Saver course teaches first mates how to handle emergencies.

Network of Friends and Fun

- Enjoy friendship and camaraderie on-the-water and off with fellow members who are skilled in boating.
- Cruises and rendezvous highlight on-the-water activities and complement shore side events like dinner parties and educational programs.
- Members are able to network with fellow members throughout the USA, Canada, Puerto Rico and the Virgin Islands, and USPS Port Captains help visiting members with route planning and local knowledge.
- USPS looks after the rights and desires of members in the U.S. Congress and state legislatures.

Giving Back to the Community

- Every squadron offers boating safety courses to the public several times each year.
- USPS members help the National Ocean Service keep nautical charts up to date.
- USPS has been honored by three U.S. Presidents for civic contributions and for educating more than 4 million boaters in the last half-century.
- USPS now performs, in conjunction with USCG Aux, courtesy safety checks.

Becoming a member of USPS requires passing a boating safety course taught by a local squadron, or other acceptable courses, and applying for membership. For membership information or questions about our programs, please call us toll-free.

Nationwide course schedules are available by calling us at **1-888-FOR-USPS** (1-888-367-8777) or visiting the web site at <http://www.usps.org>
