

Sea Tow and USPS signed a Memorandum of Understanding at the annual meeting 2014.

Sea Tow has provided the cards included for any boating course student. You can order more of these free cards from USPS headquarters by using the order number below, and you can find more details about their offering on the Member Benefits web site.

Here is a general explanation of the Sea Tow and USPS partnership:

All three organizations, Sea Tow, Sea Tow Foundation and the USPS, will work closely together to provide boating safety resources and education to the public, while USPS members and boaters who take a USPS Boating Safety Course will benefit from valuable new discounts on Sea Tow memberships, enhancing their peace of mind of the water.

- All USPS members will receive a promotional code for a \$10 discount off their Sea Tow Membership, whether they are purchasing a new membership or renewing their membership. This brings the cost of a Sea Tow Gold Card Membership down to \$159 per year for USPS members, while offering them the same valuable services and benefits enjoyed by all other Sea Tow members.- When joining or renewing (www.seatow.com or 1-800-4 SEATOW (800-473-2869) use the code PSQ.
- All boaters who complete a USPS Boaters Safety Course will receive a coupon code (or can order the Trial Membership Cards from the Ships Store to distribute at courses) for a free 60-day Sea Tow Trial Membership (use the code PSC), after which they will have the option to upgrade to a full membership – technically getting 14 months for the price of 12 (use the code PSE)!

To take advantage of these offers use this link: <http://www.seatow.com/usps>

The USPS order number for more boating course discount cards is 07-39-051.

In addition to the great membership benefits above, Sea Tow also offers the Automated Radio Check Service (ARC)

It's simple to use:

1. Automated Radio Check Service uses one of VHF channels 24, 26, 27, 28. Simply tune your radio to the proper channel for your community.
2. Conduct a radio check as you normally would.
3. Upon releasing the mic, the system will replay your transmission, letting you hear how you sound.
