

**USPS-NOS COOPERATIVE CHARTING PROGRAM**  
**SMALL CRAFT FACILITY WORK SHEET**

ATTENTION ATTENTION ATTENTION ATTENTION

According to NOS a small craft facility **MUST** be public (not private) and have at the minimum following services:

- \* Fuel--Gasoline and or Diesel
- \* Pumpout Facility (Or has access to a municipality or community facility)
- \* Transient Berths and/or Moorings

It also **MUST** have an Approach Depth and Alongside Depth.

**If the facility is new or an update and it falls on a Small Craft Facility chart submit it to the SCF page. This information will get to the Coast Pilot people. If it doesn't fall on a small craft facility chart then it should be reported in the Coast Pilot category only. If the facility has been discontinued it should be reported in the SCF category only. The Coast Pilot Section will get this report and remove the facility if it is in the Coast Pilot. The Coast Pilot branch is following the definition of a small craft facility. So, do not report SCF information that is discontinued in the Coast Pilot Category.**

**PLEASE ONLY REPORT ON A FACILITY ONCE A YEAR.**

To see which facilities that have been reported on go to the Main Menu page and click on the link 'Small Craft Reports Previously Submitted'.

Required fields are indicated with an asterisk: \*Fields indicated with a double asterisk (\*\*) are required only if Action is New or Update. Fields indicated with a triple asterisk (\*\*\*) are required only if Action is Update or Discontinued.

\*Action:     New                       Discontinued  
                  Update

**DESCRIPTION**
