

Why Take A “Fuel and Boating” Seminar?

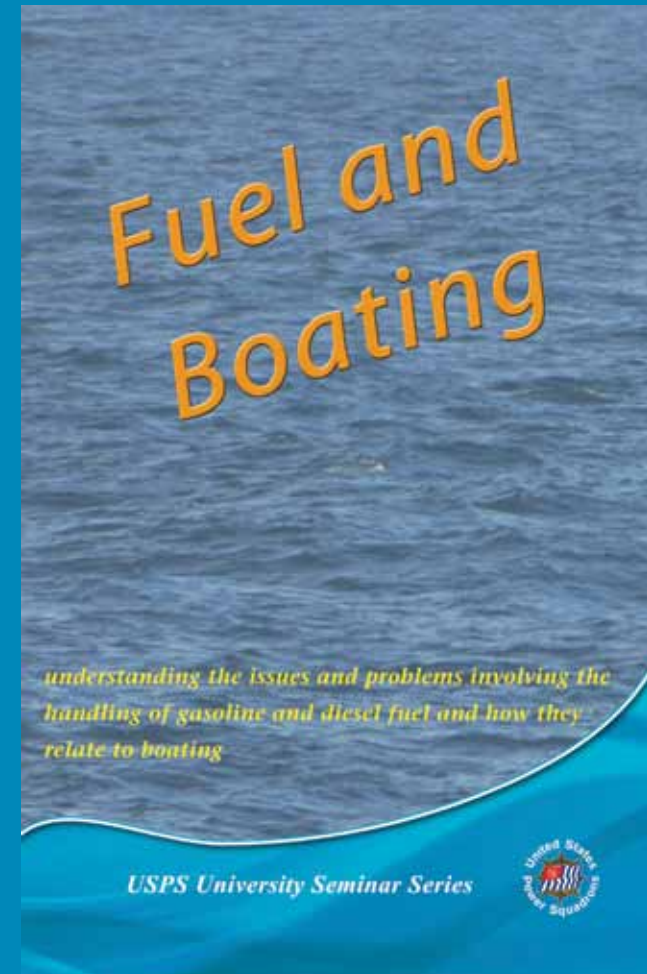

Everything you need to know about:

- Gasoline and diesel marine engines
- Fuel consumption
- Boat performance
- Calculating miles per gallon
- Fuel problems

- And More -

In less than two hours you will learn why and how to:

- Practice environmentally safe fueling
- Control and prevent “oily waste” discharges
- Know the difference between gasoline and diesel engines
- Measure and predict fuel performance
- Employ special “rules of thumb”
- Calculate range and distance
- Recognize fuel problems

Fuel and Boating Seminar

A must for all boaters!

*Boating is fun...
We'll show you how!®*

LEARN From The Best!
