What Fun We Had at This Year's Lobsterfest - and amazingly the weather was perfect!

*Here are some photos
of the evening!*

*Chauncey Creek
Lobster Pier
was hopping on
Saturday, Sept. 15th
for our annual
Lobsterfest! The sun
was shining and there
was just a slight
breeze. We had
waterside seats so we
could watch the
seagulls trying to catch
fish bait from fishing
lines - before they
could take a bite, watch
motor boats and kayaks
come up and dock for
dinner!*

Welcome to our New Members currently in the Boat Handling Class:

PYC member Sue Hills of North Hampton, PYC member Donna Vitands of Durham with her outboard m/v "Sonata", Frank Kolbe of Kingston refreshed his 48 yrs boating with our spring ABC class, Liam MacVittie is a Dover High student planning out his boating future, KPYC sailor and surfboard builder Richard Dennis Jr of York, and Rick Dumont of North Hampton with his 40' m/v "Glory".

Welcome to all of you and we look forward to sharing knowledge and camaraderie!

This is the first time that the class is using the new format for this class - which used to be called Seamanship. The editors have done a very good job in refreshing the text and there are many well done videos to illustrate situations in real time. The biggest change is that students don't have to wait for printed textbooks to come in the mail, since they now download their class materials directly!

Commander's Message

It looks like Fall now, some good leaf colors are popping up and boats are starting to appear on jackstands. The last cruisers are enjoying having harbors to themselves and local race results are in. You may be interested in checking out the local harbor fleet activities of the Piscataqua Sailing Association at <http://www.sailpsa.org/>

The Education Department has deftly incorporated the new Boat Handling course, extremely hot off the virtual press! This new version of Seamanship has been greatly updated and revised to not have redundant ABC material. Many thanks to all our volunteer instructors who are team-teaching this. I hope all students and instructors take a moment to write up a couple feedback comments on the results of modernizing this USPS eBook course. Any of our members can volunteer to teach a seminar or course from the course material provided, please consider helping us expand our listings. You don't have to be the world's foremost expert, we have such a rich depth of experience in our membership there's always advice others can benefit from.

So far, 51 people have signed up for the 3-District Fall Conference the last weekend of October in Hyannis. I look forward to an off-season visit to the Cape and to hear the presentations.

D12 includes the Cape Cod Canal up to Cape Ann and west to Worcester. D14 has 900 members and runs from Rhode Island to Provincetown. D19 starts at the MA/NH border, reaches west to Lake Winnepesaukee up to Penobscot Bay in Maine. See details below for the special group code for guestrooms.

Good luck getting your vessels organized for fall & winter and maybe we'll see you in a classroom in 2019!

Cdr Kit Lord, JN
