Cdr Mike Siwek, SN

This and That

First of all, I would like to say I am pleased and honored to serve as your Commander again. We have great people on the Bridge which makes my job much easier.

Boating season is finally here and the water is warming. I can hardly wait to get the kayaks out again and take to the water. It is so peaceful paddling on a lake or river.

I wish to thank P/C's Lynn and Dan Fortman for arranging the tour of Wade & Gatton Nursery in Bellville. The hostas we purchased are still in the pots, but hopefully I will get them planted soon. Also, Lynn and Dan arranged for a tour of the Mansfield Memorial Museum here in Mansfield. I have lived in Mansfield all my life, and have never visited the museum. This tour was very interesting and educational. Thanks again Lynn and Dan.

At the last executive/membership meeting, it was suggested we move up the meeting time from 7:30 PM to 6:30 PM. Everyone thought this was a good idea so we have changed the meeting time. Our executive/membership meetings are always held on the second Tuesday of each month, except for July where we have no meeting.

2018-2019 Bridge

Commander

(Continued from page 1)

The next executive/membership meeting will be held on **14 August at 6:30 PM**

The “Jump Start Program” is designed to help new boaters by providing hands on experience. If you are an experienced boater and would like to help mentor a new boater, either on your boat or their boat, please consider joining the Jump Start Program. If you would like more information, please contact me.

Another important program is the Vessel Safety Check (VSC) program. It is a way of meeting new boaters and introducing them to America’s Boating Club. We need new VSC examiners to continue the success of this program. If you are interested in becoming a VSC examiner, please let me know. We could set up a small meeting to discuss what is required to become a VSC examiner.

Upcoming events:

20 July Dinner and Music at the Vault,
Shelby OH

25 July Applebee’s Fund Raiser,
Mansfield OH

27-29 July D/7 Cruise, Cleveland OH

12-19 August National Governing Board
Meeting, Minneapolis MN

2-4 November D/7 Fall Conference,
Independence OH

Everyone, not only Bridge Officers is encouraged to submit articles for publication in the Yachtsman. If you have anything interesting that you think others might enjoy, please submit them to the newsletter editor.

From time to time, I would like to include some nautical trivia in the Yachtsman. Little known facts from the past which may be of interest to boaters. Look in the Yachtsman for this trivia.

Website: <http://www.usps.org/mansfield>

Remember, there is no July executive/membership meeting. The August meeting will be held on August 14th at **6:30 PM**

Jim Jackson Receiving Award

(See page 6)

The Mansfield Yachtsman is published every other month.

The editor reserves the right to edit any articles submitted for size, clarity, spelling and grammar. The editor also reserves the right to omit any submitted article due to space limitations.

Please submit articles either as a Word document or in the body of an E-mail.

Send your articles and pictures to Irene Rodriguez at rrodriguez001@neo.rr.com

Deadline for the Sep/Oct issue is
August 15

Executive Officer

P/C Dan Fortman, JN

NEW SMALL BOAT REPORTING PROCEDURES NOW IN EFFECT Reporting Offsite Arrival – Mobil (ROAM)

Several of the Mansfield Power Squadron members were in attendance last week to hear Officer Wray of the U.S. Customs and Border Protection (CBP) explain the arrival of a new, free app that will help to improve arrival notifications in the Sandusky Lake Erie area. According to Officer Wray, this is a comprehensive effort to improve the security of our Lake's borders while enhancing legitimate travel. It is called the Mobil (ROAM) app.

Pursuant to 19 CFR 4.2, operators of small pleasure vessels, arriving in the United States from a foreign port or place (i.e. Canada) to include any vessel which has visited a hovering vessel or received merchandise outside of territorial sea, are required to report their arrival to CBP immediately. The new app will allow small boaters to be able to complete their inspection with a CBP officer through an app on a smart phone device, I-Pad or laptop at one of the new ROAM reporting locations. The ROAM app allows small boaters the flexibility of reporting their arrival in the U.S. from any location. The app is free and is available in the Apple and Android stores. This app enables a video conference with CBP officers located at the Sandusky entry point.

“This technology is a step in the right direction for the boating community as well as for our officers processing these types of arrivals”, according to Officer Wray. Having the clarity of high definition video, coupled with the traveler’s information from the application is strengthening border security while facilitating legitimate travel and commerce.

Small boaters can construct a profile within the application and submit their information for a CBP video conference when crossing the U.S. border. Traveler information can be easily saved with the app, or recreated for future crossings. CBP encourages boaters to take advantage of the ROAM app on their smart phone devices. Travelers in possession of a Nexus Card or I-68 can still report their arrival by calling 1-800-827-2851 – or by using the ROAM app.

The website for more information is: <http://cbp.gov/travel/pleasure-boats-private-flyers/pleasure-boat-locations>

Getting Started

Travelers should download the ROAM app on their web-enabled smart device. After opening the ROAM app, tap “Sign in”.

Travelers who do not have a login.gov account should “Create an Account” and follow the instructions.

Travelers who already have a login.gov account should sign in to their existing account and will be directed back to the ROAM app. “Sign In”.

Enjoy a safe and enjoyable boating season!

From the Safety Officer

P/C Daniel Fortman, JN

Preventable Tragedy

A tragic accident that occurred a few years ago has prompted me to write this reminder about boating and alcohol. Two boaters, out for the day of fishing, were returning to the boat ramp to load up for the day. Less than one-half mile from the ramp, they ran into a channel marker. Both men were thrown into the water. One man survived, the other did not. Investigation of the accident turned up several beer cans in the boat. As you can guess, alcohol may have played a part in this accident.

Most boaters, even though they logically know that they should not drink and boat, don’t understand the enhanced effects that alcohol can have on the water. Natural stressors such as exposure to the sun, glare, wind, noise, vibration and motion on the water produces “boater’s hypnosis” or fatigue. This alone reduces reaction time almost as much as being under the influence. Adding alcohol to these environmental stressors intensifies their effects.

Alcohol can decrease a person’s ability to handle the boat in many ways. As a depressant, alcohol goes straight to the nerves, blood stream, and the brain. As recreational boaters, it is hard enough to remember all the rules, regulations, boat handling techniques, etc. while lucid. A few beers to quench the thirst in a rapidly dehydrating body and the

(Continued on page 4)

(Continued from page 3)

following happens:

Eroding sense of balance – Most boating deaths result from falling out of small open boat, without a PFD, whether it capsizes or not.

Vision fades – Because of the sun and reflection of light, objects on the water can be hazy and difficult to see. Color perception and peripheral vision deteriorate and at night depth perception decreases. You can imagine what happens if you can't distinguish between the red and green markers (or worse, cannot see the markers at all) or red and green lights of an oncoming vessel at night.

Coordination suffers – Should a person fall into the water they may have trouble just floating, let alone grasping onto a life ring or throwable device. Add the shock of cold water and the risk of cramping and drowning is increased significantly.

Surface blood vessels dilate – Blood vessels on the surface of the skin dilate to increase the rate of body heat loss while in the sun. If, while these vessels are dilated, you fall overboard into cold water, hypothermia sets in quickly and this further reduces your decision-making abilities.

Dehydration sets in – As the sun beats down and the body naturally tries to cool itself by expelling perspiration to cool the skin, the body starts to get dehydrated. Drinking alcohol while dehydrated greatly enhances the rate at which the alcohol is absorbed.

Judgment is impaired – One of the things that drinking tends to do is to make you begin to lose your judgment. After a drink or two, people tend to become relaxed and are more likely to perform dangerous acts that they might not normally do if not under the influence.

One third of all boating fatalities are alcohol related. It is illegal to operate a boat, or to permit others to do so, while under the influence of alcohol, narcotics, or barbiturates. Penalties are severe and could include fines up to \$5000, imprisonment of up to one year, non-paid public service work, and mandatory substance abuse counseling. If you should kill or seriously injure another person, the penalty can be up to five years in prison and a fine of up to \$5000.

So, use good judgment. The same holds true with your boating as it does in your automobile or

truck. Do not drink and drive. There will be plenty of time to enjoy that adult beverage when you are safely secured to your dock.

Nautical Trivia

Excerpts from the book Traditions of the Navy by Cedric W. Windas published In 1942

Pennsylvania: Contrary to popular beliefs the state of Pennsylvania was not named for its founder, William Penn, but for his brother Admiral Penn, as a mark of the King's favor.

Eight Bells: This measure of time originated in the days when half-hour glass was used to call off the four-hour watches. Each time the sand ran out, the ship's boy whose job it was to reverse the glass, struck a bell to show he was attending to his business. Thus eight times he turned the glass and eight times he struck the bell.

Berserk: This word denoting ungovernable rage was coined from a custom of the Vikings, who to prove their courage in desperate fights, would tear off their shirts of mail and fight half naked. Hence the term "berserk" or "Bare-sark", meaning literally "Bare of Shirt", as sark is the Norse word for shirt.

This led to the saying of "Keep your shirt on".

Buccaneer: The original buccaneers were not romantic pirates, but only a bunch of hard working swabs who made "Boucan" (smoked beef) for a living. Hence Boucan or Buccan-eer.

Admiral: It seems a far cry from a Moorish chief to a senior ranking naval officer in the navy. Yet a Moorish chief is an Emir, and chief of all the chiefs is the Emir-Al from which we get our English word "Admiral"

Administrative Officer

P/C Lynn Fortman, JN

Hello MPS Members,

I hope that you are all enjoying our warm weather in Ohio as you prepare for an exciting time on or near the water during this boating season!

At our Annual Meeting on March 17,

2018, there was a lengthy discussion as to the financial cost for production, printing and distribution of a new roster each year as well as the cost of time to produce a new document. During the discussion, we had less than ten changes in our current roster. As you know, we have a very faithful following of members, many of which, I know in name only because they were members before Dan and I began with the squadron. However, they continue to support the organization and its goal of making the waters safe for all boaters through education. Consequently, the number of member changes have been minimal. With that being said, the Executive Committee voted to try a new approach for this year. Today you are receiving an addendum to your hard copy roster from last year. In this addendum are the few personal information changes that I have received.

Our District 7 is also requesting that we update all email addresses at the national level so that more information can be disseminated through the internet to offset the cost of hard copy printing. If you have a new email address, please be sure to send this information to me at fortmanlynn@gmail.com.

In addition to the roster addendum, we are working to see how we can utilize the password controlled USPS Members Only website to offer an online approach that would be available even on your phone. At this point, we are still in the review stage of the process.

We are **America's Boating Club** and I hope that the Activities List that you received in your Yachtsman or that you can find on our website at www.mansfieldpowersquadron.org will be helpful. If you have any questions, please do not hesitate to contact me via email or call at 419 347 6260.

EVENTS

We weren't on the water but we had a good time at two outings earlier this rainy spring. One was to Wade and Gatton Nursery where we were given a tour by the grandson of the original owners of the nationally recognized Hosta Gardens that envelope the property in Butler. The second event was the visit to our local Soldier and Sailor Memorial Building in Mansfield that houses the Mansfield Memorial Museum. The artifacts there have come from many local families and organizations such as our local National Guard Members. If you haven't had a chance to see this unique treasure, the curator, Scott Schaut will be delighted to tell you more about the nuances of the collected

items and if you're lucky, he may even turn on the well-known robot, *Elektro*!

July and August Events

We will have a **Friday night outing at The Vault Wine Bar in Shelby, on Main Street at 6:00, July 20.** Weather permitting, we will be outside to enjoy the band and the beverages. Small plate appetizers are also available and they make a great, thin crust pizza.

Wednesday, July 25 will be our Applebees Classroom Fundraiser outing from 11:00 am -9:00 pm. Stop in anytime between those hours and bring your fundraiser pamphlet to give to your server upon ordering. Remember that we earn 15% of your total meal receipt to offset our classroom rent.

District Rendezvous at the Rock and Dock Marina will take place the weekend of July 27-29. Join your friends from the other D-7 squadrons as we meet together in Cleveland for an exciting weekend of entertainment. More information will be coming from the district as plans are finalized.

The annual Geological Marker Hunt is schedule for Thursday, August 23 beginning at 10:00 at the Ashland Brookside West Pavilion. Brookside West is located on Baney Road, just south of St. Rt. 96. A GPS, watch, and camera are needed for each group. A metal detector would be helpful but not required. After the search we will adjourn to The Mill Restaurant, located in the Buehler's grocery Store on the east side of Ashland on Sugarbush Drive.

Sunday in August- Please join us for a free movie on the big screen at Cleveland Playhouse. We have only 20 tickets available for Mansfield Power Squadron members on a first come - first served basis. A specific date has not been chosen because the movie schedule has not yet arrived. After the movie, we will walk up a block to the Haufbrau House for dinner and a beverage. Carpooling is suggested since there is a \$5-\$15 fee for parking at the local lots depending upon other events. I will contact you with more information if you let me know before the end of July that you are interested depending upon the date.

For all of the upcoming events, please call me at 419 347 6260 or email fortmanlynn@gmail.com to let me know your intentions and we will do our best to save you tickets or a seat at the table.

From the Education Officer

Lt/C Shirley Fort, SN

Millikin/Brewer Award for Teaching Excellence

The Award for Teaching Excellence recognizes an instructor that measures up to highest standards set in the early days of this squadron by Perry Millikin, Boating and Piloting instructor, and Burke Brewer, long-term SEO.

This year's recipient insists he is not a great teacher. Perhaps that is why he spends so much prep-time for every class session.

He absolutely hates to stand up in front of a group. Perhaps that is why he is more likely to sit down beside a student and talk through a problem than to lecture.

He probably never heard of Vygotsky but he instinctively follows the scaffolding theory of learning. More than once his students have told me: If you don't understand something, he doesn't just repeat what you already don't know. He goes back to your base, the point at which you started to get lost, and rebuilds from there. Re-building the scaffold, if you will.

And, finally, though I'm not sure I've ever heard him actually say it, he certainly exemplifies the Etzwiler/Fort philosophy: "If the student didn't learn, the teacher didn't teach." He encourages, explains, rewords, tutors, nags if necessary, to be sure a student understands, perseveres, and successfully completes a course of study.

For help in sorting out the Power Point slides for the boating class, for the hours spent with Wayne Hammond getting the electronics to work for the N class, and for never, ever allowing his students to give up, Jim Jackson, SN, was chosen as the 2018 recipient of the Millikin/Brewer Award for Teaching Excellence.

The Belliard Award for Student Achievement

The Belliard Award is presented each year to a student exemplifying highest educational achievement. Identifying that student has become more difficult as the field of students narrows and the quality of students increases. All of this year's candidates ranked closely in test scores. Quality of homework and class attendance was excellent. Many of the students took more than one class and they all tolerated the frustrations of changes in technique brought on by "improvements" in course materials. I simply could not single out one person for this award. So I broke all the rules- the written criteria as well as the unwritten traditional guidelines. If you disagree with my selection.... Well, you can be SEO next year.

This year's recipients (yes-plural, more than one) grades were good, not the highest but well within acceptable limits. They took as many, but not more than, other candidates. They were diligent with homework assignments and kept pace with classroom progress even when unable to physically attend. We traditionally do not give awards to Bridge Officers, but darn it, anyone who tackles JN and N while simultaneously being Commanders has to be either the very best, most dedicated students this squadron has ever had, or they are absolutely insane. In recognition of their educational achievements Dan and Lynn Fortman (both JN's and almost N) will share the Belliard award for 2018.

OPPORTUNITY KNOCKS

Master Mechanic John Fort has a small opening in his teaching schedule for late summer/early fall. This is a great time to access his knowledge about engines, whether identifying a "funny" noise or saving a few dollars doing your own maintenance. IF YOU ARE INTERESTED, PLEASE let us know as soon as possible. The class will be scheduled around the students' needs.

ROSTER UPDATES 2018-2019

Commander's Message

As we start our 66th year, The Mansfield Power Squadron has much to be proud of. Sixty six years of promoting boating education and safety.

We continue to be strong, but we are always looking for new members. Spread the word about our fine organization and ask your dock mates to join us.

As for our present members, I wish to thank everyone who continues to pay their dues and support our Squadron. I encourage every member to become more involved by attending the membership and executive meetings and supporting our educational and social functions.

Plan to take an educational class this year, or enjoy yourself on one of our social functions.

We are planning more “non-boating” activities for those who no longer have boats, so please join us.

It is now official, we are now known as “America’s Boating Club”. We are still the United States Power Squadron, but our new name and logo better describes our organization. The new logo includes paddle craft, power boats, and sailing vessels.

Have a happy and safe boating season.

Mike Siwek, SN

Please save these changes to last year's roster or make a copy of this information from your printer. Thank you for your help and understanding in keeping our squadron fiscally responsible.

New 25 Year Members

Cindy Edwards, Mike Edwards, Mavis Hammond, Wayne Hammond, Mike McDaniel

New Fifty Year Members

Tom Etzwiler

Merit Marks were again awarded to those individuals who have given of their time to support the advancement of squadron activities in their attendance, bridge/executive/general committee responsibilities, teaching assignments, or functions of the squadron.

*** Members with email addresses will be reminded of upcoming events. If you have questions about an event, please call.

Touring the Mansfield museum

Wade and Gatton Outing

Hey Grandma, which one can I pick?

Places of interest -- In and around the Rock & Roll Hall of Fame

Rock and Roll Hall of Fame -- Wheel Chair Accessible

1100 Rock and Roll Blvd

Cleveland, Ohio 44114

216-781-7625

Open: 10am to 5:30pm

Admission:

General -- \$26

Seniors -- \$24

Youth -- \$16

Great Lakes Science Center -- Wheel Chair Accessible

NASA Glenn Visitor Center

Cleveland Clinic Dome Theater (6 Stories Tall)

601 Erieside Ave.

Cleveland, Ohio 44114

216-694-2000

Science Center Admission: \$16.95

Dome Theater Admission: \$10.95

Combined Discount: \$21.95

William G. Mather Steamship

1001 E 9th St.

North Coast Harbor Park

Cleveland, Ohio 44114

216-574-6262

Open: 11am – 5pm

Admission -- \$8.95

Tour this restored 618-foot historic ship and see what life was like on board a working Great Lakes freighter. Explore the 1925-built *Mather* from stem to stern and see its huge cargo holds, brass and oak pilot house, elegant guest quarters and four-story engine room. Walk the decks and marvel at the “engineering firsts” that helped transform Northeast Ohio into a great industrial center. Experience the golden era of steamships on one of the best.

USS COD Submarine -- Not Wheel Chair Accessible

Times: 10am – 5pm

\$12 for Adults

216-566-8770

\$10 for Seniors

Come aboard and travel back in time to a place where survival depended upon silence, deep water, and well aimed torpedoes. USS Cod is where Cleveland honors its veterans!

Women's Air & Space Museum -- Wheel Chair Accessible

Burke Lakefront Airport, Room 165

216-623-1111

1501 N Marginal Rd.

Open 8am – 8pm

Cleveland, Ohio 44114

Free Admission

The mission of the International Women's Air & Space Museum is to collect, preserve, and showcase the history and culture of women in all areas of aviation & aerospace; educate people of the world about their contributions; and inspire future generations by bringing the history to life.

Parking -- 500 car Garage which is attached on the west side of the Great Lakes Science Center

\$8 per day -- With a Science Center Ticket

\$9 per day -- With a Rock and Roll Hall of Fame Tick

\$11 per day -- Max with no purchased tickets.

SATURDAY:

1500 -- Commander's Cocktail Party on the docks

1830 -- Goodtime III Cruise -- \$54.95pp, Discount Tickets are available with Promo Code: PS728

Experience a narrated sightseeing cruise on the Cuyahoga River and Lake Erie. The Goodtime III operates from Cleveland's North Coast Inner Harbor at E. 9th Street Pier, next to the Rock and Roll Hall of Fame. The Goodtime III is the largest quadruple-deck 1,000 passenger luxury ship on the Great Lakes.

SUNDAY:

0900 - 1200 -- SUNDAY BREAKFAST BRUNCH

Long time supporters of USPS, Lakeside has invited us to join them on Sunday. Please note on the registration form if you are planning to attend so that they can have an approx. head count.
