

Why Take A “Tides & Currents” Seminar?

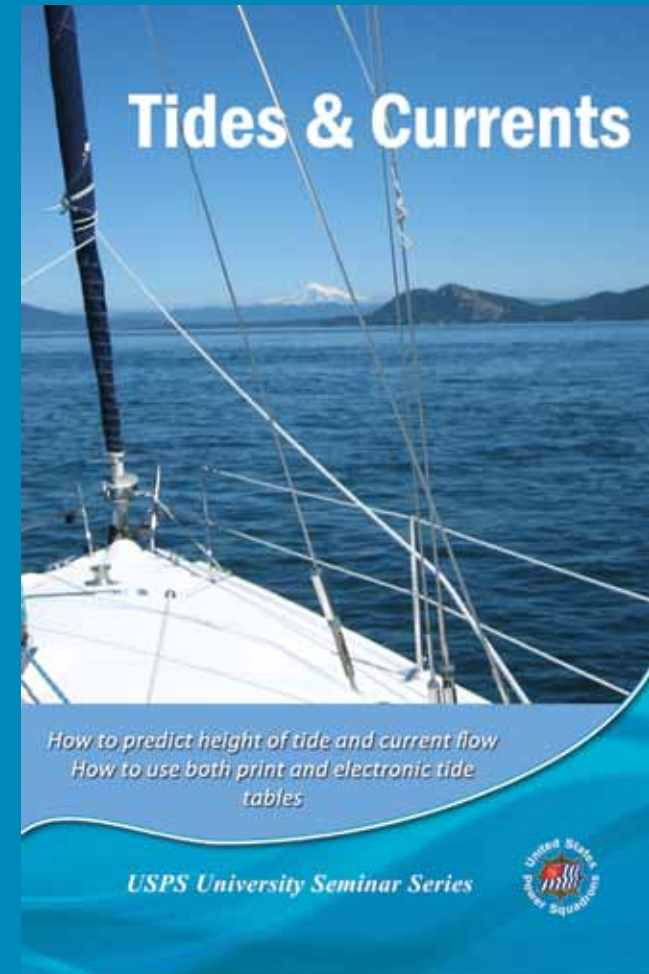

Everything you need to know about:

- *Tides and currents in U.S. waters*
- *Causes and effects of tides*
- *Significance of tides and currents and boat performance*

- And More -

In less than two hours you will learn why and how to:

- *Predict the time of highest tide before it begins to fall*
- *Predict the vertical movement of the water*
- *Safely navigate low tide*
- *Calculate when the current reaches maximum flood*
- *Determine the speed of the current*
- *Deal with mean high and low water*
- *Use NOAA charts*
- *Factor in tides and currents when anchoring*

Tides & Currents Seminar

A must for all boaters!

*Boating is fun...
We'll show you how!®*

Want to know...

What causes the tides to rise and fall

What causes the currents to flow

Factors that influence the rise and fall of tides and the resulting currents:

- *strong winds*
- *atmospheric pressure*
- *water levels of rivers and lakes*

How the sun and moon influence tides and currents

Tidal height and current predictions
